

# The Deep P\$ychology of Money

A full-day workshop  
presented by  
Dr Suzanne Cremen  
Pacifica Graduate Institute (USA),  
Life Artistry Centre (AUS)

25 May 2019, 9:30am – 4:15 pm,  
The Augustine Centre, Hawthorn, VIC

Who amongst us does not think (or fret) about money? Complexes around money affect all of us, rich or poor, in one way or another, and they are often constellated in the context of our working lives. We live in a time of alarming and rapidly escalating economic inequity. Yet money remains one of the most neglected issues psychologically, including in writings on vocation and the exhortation to follow one's true calling.

This unique and enjoyable workshop draws on the writing and lived experiences of C.G. Jung, Sigmund Freud, James Hillman, Thomas Moore and others, as well as contemporary case-studies of men and women, to present fascinating depth psychological, metaphorical and mythological insights into the origins and nature of money.

---

*"...Since money is an archetypal psychic reality, it will always be inherently problematic because psychic realities are complex, complicated.... Money is devilishly divine."*

— James Hillman

---

Money is not just a rational medium of exchange. It can fill us with compelling desire, anxiety, envy, and greed. Through a mixture of lectures, reflection questions, discussion and creative activities, participants will explore the paradoxical nature of money, as both a motivator and a complex. At the core of our various money complexes – to hoard, to posture, to gift, to consume – bubble the energies of various archetypes. What gods and goddesses are *you* in service to with your money behaviours?

In a contemplative and safe space, we will reflect on our personal, family, gendered and cultural money histories and experiences, with a view to discerning their teleology, or larger purpose. We will consider how money serves a conduit of the imagination and a main projection carrier for the soul.

There will be time to journal, contemplate new questions and ideas, and engage in reflective conversations and small group activities.

**JOIN US FOR A JOURNEY OF DISCOVERY!** (see over for details)

# A highly recommended workshop

*"Thanks again Suzanne, I wanted to share that I found the Deep Psychology of Money workshop to be a powerful experience because it allowed me to engage with gendered, mythological and family threads I hold around money. For a topic that is rarely looked at in our culture, and often seen as taboo – your insight, depth and playful sense of humour made the session engaging and enjoyable. I liked the way all the paradoxical complexities of money were held open, and in particular the way creative potential of money as a pathway to integration was unpacked. The case studies and group process were interesting and moving. You created a safe, rich and nuanced atmosphere to learn and share. The flavour of your teaching was inviting and I feel a new sense of energy and potential around this topic both personally and professionally. Highly recommend and looking forward to future learning with Life Artistry Centre!" – Meeray Ghaly, Psychotherapist and Artist*

## Your Workshop Leader

**Dr Suzanne Cremen** serves as adjunct faculty at the Pacifica Graduate Institute, USA and founder of the Life Artistry Centre for Archetype, Imagination and Vocation. She holds two Masters degrees from Pacifica (in Jungian and Archetypal studies, and Engaged Humanities and Mythology) as well as degrees in Law and Arts. Suzanne's PhD thesis and forthcoming book is on a depth psychological approach to vocation and career development, and her research is published in international peer-reviewed journals. Her background includes working as a lawyer, conference producer, screenwriter, publisher and career counsellor for adults in midlife. Dr Cremen has presented plenary sessions and chaired symposia on the applications of archetypal psychology at major international conferences, including in New York and Québec. She is a past president and honorary life member of the C.G. Jung Society of Queensland.

## Will this workshop suit me?

This workshop will be beneficial for you if:

- ◆ You are curious about how the deeper roots of your money difficulties and complexes may be linked to your early life experiences, or family, ancestral, or cultural trauma;
- ◆ You are interested to expand your ideas and understanding of money in a symbolic, mythic and depth psychological sense;
- ◆ You wish to become more aware of what your financial situation, history and relationship with money is asking for your own journey of individuation.

The level at which our courses are taught is designed for adults with a tertiary education (in any discipline). This workshop complements other Life Artistry courses on **Career as a Journey of Soul**; **Archetypal, Mythic and Cinematic Perspectives on Vocation**; and **Complexes as Pathways to Vocation**.

### WORKSHOP REGISTRATION INCLUDES:

- Refreshments (BYO lunch or purchase nearby)
- Certificate of Attendance for CPD points

### DATE, TIME & VENUE:

- Saturday 25 May 2019, 9:30am – 4:15pm (registration from 9.15pm)
- 2 Minona Street, Hawthorn, VIC 312

**FULL DAY WORKSHOP FEE** only \$135; concession \$115. Partial scholarships or staged payments may be available for people who would benefit from this workshop and are unable to participate for financial reasons. If this applies to you, please contact us.
